

Partnership for Missional Church (PMC): our congregational timeline

What's the point of doing this?

*To discern God's vision for our future we need to know where we are now. **So ...***

we need **to listen** to our congregation

we need to be aware of our **past** – to **celebrate** what has been good and to be **honest** about what has not

we need to recognise **what is still good** and

we need to take the good into our future – **God's future for our church!**

We want your memories, your thoughts, your hopes, your fears, your dreams for our church to help build **God's future**. ***Please join us and help create our timeline***

St Paul's
