Dear friends,

Well, it's all happening here- people with tape measures, people with yard sticks and people who have hand-gel all down their legs because they are still working out how to get it out of the dispenser without getting it all over their clothes. Richard has been working really hard on a letter to everyone so I have kindly offered to write the covering note- and here it is. This is a covering note introducing a letter from Richard. Enjoy it.

And actually, while I'm here, let me also say this- hello everyone. It's been ages since I got to talk to you, ages and ages and ages, and I miss you lots and I can't wait to see lots of you in 10 days' time. I have already offered to help show people to their seats, and to light the incense, and to play the piano, and to do some of the cleaning afterwards. It will be worth it if I get to see you again.

Oh happy day.

*Yours, excitedly and doing a little heel-kicking kind of dance,
Bertie*
